CARILION CLINIC
FOUNDATION

Building Hope:

ADVANCING CANCER CARE FOR OUR COMMUNITY

The new cancer center is coming. The expertise is already here.

While the structure rises on Reserve Avenue, Carilion Clinic is also building the medical and research foundation of the Carilion Taubman Cancer Center.

You've seen the billboards, heard the radio ads, and followed the social media posts showcasing the expertise already driving Carilion Clinic's cancer program. Professionals like **Lindsay Collins DNP**, **Cathleen Cook, MD**, and **Brendan Klein, DO** are changing lives with the exceptional care that they provide.

The Carilion Taubman Cancer Center will provide a new, expanded home for this cancer care, with the latest technological advancements to support patients and their families. The expertise that will drive this care is already here.

As we continue building the future of cancer care, this campaign reflects the strength of the teams delivering compassionate, high-quality care today and the solid foundation on which the new cancer center will stand.

SEE THE PROGRESS

Danny’s Story: Research Turned into Hope

Two years ago, Danny D. was receiving treatment as part of a clinical trial for a leukemia diagnosis. Today, Danny is starting first grade, reading and writing above grade level, and enjoying T-ball.

READ MORE ABOUT DANNY'S STORY

Carilion Taubman Cancer Center Construction Tour

Stories like Danny's are why we're building a dedicated home for this work in the Carilion Taubman Cancer Center. Construction is well underway, and you can get an exclusive look inside by taking our behind-the-scenes hard hat tour.

This progress is made possible thanks to the generosity of donors whose support is helping bring expanded, patient-centered cancer services to life.
